INDEX TO VOLUME CLXXX.

AUTHORS.

A

- Abern, Michael Joseph, and Abern, George. Jean Francois Gaultier (1798-1759), 245.
- Allen, Walter A. Thyroglossal tract fistulae, 601.
- Alley, Leon A. The value of artificial pneumothorax therapy as associate treatment of pulmonary tuberculosis, 668.
- Angvine, Robert W. Anthrax septicemia from accidental inoculation of shaving wound, 149.
- Appleson, Paul. Premature separation of the placenta, 711.
- Armstrong, B. B. Influenza: is it a hazard to be healthy? Certain tentative considerations, 65.
- Ayers, Samuel, Jr. Post-influenza alopecia, 464.

B

- Baker, Donald V. Flat feet and leg muscle strain, related to industry in cause, 554.
- Barnes, George Edward. Vasodilators in the intravenous treatment of syphilis with arsphenamine, 558.
- Barnes, Harry L., and Berton, Harry S. Complement fixation in tuberculosis, 34.
- Baruch, Simon. Natural and artificial CO₂ waters in cardiac diseases, 384.
- Berton, Harry S., and Barnes, Harry L. Complement fixation in tuberculosis, 38.
- Bloodgood, Joseph Colt. Treatment of tumors of the upper jaw with the cautery, 186.
- Brewer, Isaac W. The incidence of venereal diseases among 6,996 men drafted into the service who reported at Camp A. A. Humphreys, Va., between September 4, and September 18, 1918, 122; A record of the fractures among 19,287 men discharged from the United States Army during November, December and part of January, 1918 and 1919, 304; The physical condition of New England men between the ages of 21 and 31 years of age as shown by the examinations made for the army under the selective service law during the years 1917 and 1918, 665.
- Brown, Percy. Walter James Dodd (1869-1916), 362.
- Bryant, Frederick. The cancer problem, 576.
- Bucholz, C. Hermann. Progress of orthopedic surgery, 670.
- Burrage, Walter L. Thomas Cooper (1759-1839), 103; Jonathan Elmer, (1745-1817), 307.
- Byford, Henry T. Nathan Smith Davis (1817-1904), 695.

C

- Callister, Alfred C. Report of a unique case of foreign bodies in the stomach, 334.
- Carey, Bernard W. Lessons from a study of one thousand diphtheria deaths, 67.
- Charlton, M. Louis Hebert (— 1627), 391.
- Cohen, Joseph, and McPherson, George E. A survey of 100 cases of drug addiction entering Camp Upton, N. Y., via draft, 1918, 636.
- Comby, Jules. Infantile scurvy, 336.
- Coriat, Isidor H. Recent Progress in Neurology, 39.
- Croftree, E. Granville. A case of successfully operated wound of the heart, 588.
- Crowell, Samuel. The annual discourse—the reflections of a physician who stayed at home, 620.

D

- Daland, Ernest M. Chordoma, 571.
- Devise, William H. Closure of schools in epidemic, 498.
- Downing, Andrew F. Lest we forget; a study of health insurance in relation to the history of the two countries where it has found most favor, 423.
- Downing, A. T. Hernia of the small bowel into the rectum, 586.
- Emerson, Francis P. Changing methods and advances in the treatment of progressive deafness following chronic catarrhal otitis media (second communication), 519.
- Eckhouse, Cassius Julius. The normal arterial tension, 372; Method of making the iodo-tannin-glycerin complex, 300.
- Farmer, Gertrude L., and Schoenfeld, Janet. Epidemic work at the Boston City Hospital, 605.
- Finkelstein, N. An interesting urological case, 151.
- Foot, N. Chandler; Huntington, James L.; Young, J. Herbert. Report of a case of congenital atresia of the oesophagus, 354.
- Fay, George. Chorea: Arsenic as a remedy, 358.

G

- Gammoss, Herbert F. Active tuberculosis, 8; Observations in the pneumothorax treatment of pulmonary tuberculosis, 528.
- Garrison, Fielding H. Robert Fletcher (1823-1912), 217.
- Gay, George W. Ten years' experience with the medical defense act, 597.
- Goldthwait, Joel E. Orthopedic problems in war. A lecture at the army sanitary school, American Expeditionary forces, 681.
- Gray, Horace. Pneumonia and empyema, 266, 295, 330, 351, 388, 422, 448, 475.
- Green, Robert M. Types of tubo-ovarian suppuration and their treatment, 179.
- Gregg, Donald. Conditioned reflexes and psychoanalysis, 669.
- Gudger, E. W. David Livingstone and the transmission of disease by insects, 523.

H

- Harris, A. F. Influenza as a factor in precipitating latent psychoses, with a brief history of the disease and analysis of cases, 610.
- Hartung, H. H. Medicolegal phases, with particular reference to tort cases, compensation, and malpractice suits, 707.
- Hawes, John B., 2nd. Experience of Massachusetts State Sanatoria for Tuberculosis during the recent influenza epidemic, 35.
- Holmes, Oliver Wendell. Farewell address of Dr. Oliver Wendell Holmes to the Medical School of Harvard University, November 28, 1882, 377.
- Hubbard, S. Dana. Industry and medicine, 119.
- Huntington, James Lincoln; Young, J. Herbert; Foot, N. Chandler. Report of a case of congenital atresia of the oesophagus, 354.
- Hyman, Albert S. An extension fracture frame, 183.

J

- Jehliian, H. S. A clinical chart of renal diseases, 9.
 Johnson, Frederick W. Three cases of pregnancy associated with tumor, 209.

 Watson, Leigh F. A new incision for appendectomy, 448.
 White, Leon E. An operation for bony occlusion of the posterior nares, 153.

Y

- Young, J. Herbert; Huntington, James L.; Ford, N. Chandler. Report of a case of congenital atresia of the oesophagus, 524.

SUBJECTS.

A

- Active Tuberculosis**, H. F. Gammons, M.D., 8.
- Active Changes** occurring in the cells of the solar plexus in intestinal conditions, Abraham Myerson, M.D., 207.
- Adaptation in Bone Architecture**, 193.
- Addresses**. Medical aspects of the workmen's compensation laws, James Warren Sever, M.D., 655; Orthopedic problems in war. A lecture at the Army Sanitary School, American Expeditionary Forces, Colonel Joel E. Goldthwait, 631.
- Administration of the institutions** for the care of the insane, epileptic, and feeble-minded in Massachusetts. Proposed legislation a backward step, 431.
- Alveolitis Dentalis**. Interstitial gingivitis, so-called pyorrhea alveolaris, localized catarrhal stomatitis. Suggestions as to its cause and its treatment, John J. McNulty, M.D., 177.
- American Board for Ophthalmic Examinations**, 313.
- American Medical Biographies**. Abraham Chovet (1704-1790), William Snow Miller, M.D., 187; Thomas Cooper (1759-1839), Walter L. Burrage, M.D., 103; Nathan Smith Davis (1817-1904), Henry T. Byford, M.D., 495; Walter James Dodd (1869-1916), Percy Brown, M.D., 362; Jonathan Elmer (1745-1817), Walter L. Burrage, M.D., 307; Reginald Heber Fitz (1843-1913), Howard A. Kelly, M.D., 75; Robert Fletcher (1823-1912), Fielding H. Garrison, M.D., 217; Burnside Foster (1861-1917), H. Longstreet Taylor, M.D., 277; Jean Francois Gaultier (1708-1756), Michael Joseph Ahern, M.D., and George Ahern, M.D., 245; Louis Hebert (—-1827), M. Charlton, 291; James Gregory Mumford (1862-1914), Malcolm Storer, M.D., 165; James Thacher (1754-1844), James A. Spaulding, M.D., 697; Jonathan Mason Warren (1811-1867), J. Collins Warren, M.D., 698.
- American Public Health Association**. Section on Vital Statistics, Committee on Statistical Study of the Influenza Epidemic, 22.
- American Surgeons at British military orthopedic centers**, 504.
- Analgesia**, post operative, Bertha Van Hoosen, M.D., 556.
- Anarchy**, the propaganda of, in the United States, 285.
- Anniversary Dinner** of the Massachusetts Medical Society, 478.
- Annual Meeting of the Council**, Massachusetts Medical Society, June 3, 1919, 731.
- Anthrax Septicemia** from accidental inoculation of shaving wound, Robert W. Angevine, M.D., 149.
- Anthropology**, applied, Captain C. L. Lowman, 493.
- Appendectomy**, a new incision for, Leigh F. Watson, M.D., 448.
- Araphenamine**, precautions in the administration of, G. W. McCoy, 596.
- Arterial Transient A rejoinder**, Clara J. Enebuske, 596; The normal, Clara Julius Enebuske, M.D., 272.
- Articular Separation of the middle and internal Cuneiforms** with and without fracture, note on, Frederick W. O'Brien, M.D., 585.
- Artificial Pneumothorax Therapy** as associate treatment of pulmonary tuberculosis, the value of, Leon A. Alley, M.D., 669.
- Award of Distinguished Service Medal** to Boston physician, 536.

B

- Back Strain**. A case of, causing acute retention of urine, with brief discussion of various phases in diagnosis and treatment of lesions of the lower region of the spine, Herman W. Marshall, M.D., 545.
- Blood Pressure**. The importance of, in surgical prognosis, Albert H. Miller, M.D., 12.
- Book Reviews**.
Medical contributions to the study of evolution, J. G. Adams, M.D., 502.
Manual of vital function testing methods and their interpretation, Wilfred M. Barton, M.D., 190.

- The psychology of special abilities and disabilities, Augusta F. Bronner, Ph.D., 191.
- The surgery of oral diseases and malformations: their diagnosis and treatment, George Van Ingen Brown, M.D., F.A.C.S., 246.
- Modern urology in original contributions by American Authors, Hugh Cabot, M.D., F.A.C.S., 246.
- The mastery of nervousness, Robert S. Carroll, M.D., 191.
- Anatomy for nurses, William Gay Christian, M.D., 15.
- The medical report of the Rice expedition to Brazil, W. T. Councilman, M.D., and R. A. Lambert, M.D., 192.
- The Wassermann test, Charles F. Craiz, A.M., M.D., 194.
- Text-book of nervous diseases, Charles L. Dana, A.M., M.D., LL.D., 78.
- Dispensaries, Michael M. Davis, Jr., Ph.D., and Andrew R. Warner, M.D., 194.
- Dispensaries—their management and development, Michael Davis, Jr., Ph.D., and Andrew R. Warner, M.D., 338.
- Exercise and set-up, Samuel Delano, M.D., 136.
- A clinical manual of mental diseases, Francis X. Dercum, M.D., Ph.D., 559.
- Rest, suggestion and other therapeutic measures in nervous and mental diseases, Francis X. Dercum, A.M., M.D., 78.
- The history of the Boston Medical Library, John W. Farlow, M.D., 136.
- Surgery of the spine and spinal cord, Charles H. Frazer, M.D., Sc.D., and Alfred Reginald Allen, M.D., 478.
- A text-book on home nursing, Eveleen Harrison, 311.
- Mental conflicts and misconduct, William Healy, 15.
- Diagnostic symptoms in nervous diseases, Edward L. Hunt, M.D., 582.
- The doctor in war, Woods Hutchinson, M.D., 533.
- Diseases of the nervous system, Smith Ely Jelliffe, M.D., and William A. White, M.D., 582.
- The surgical operations on President Cleveland in 1892, W. W. Keen, M.D., 77.
- Military hygiene and sanitation, Frank B. Keefer, A.M., M.D., 274.
- Anatomy and physiology for nurses, Diana C. Kimber and Carolyn E. Gray, R.N., 451.
- Diseases of the male urethra, including impotence and sterility, Irving S. Knoll, B.S., M.D., F.A.C.S., 279.
- Diseases of infancy and childhood, Henry Koplik, M.D., 219.
- Clinical disorders of the heart beat, Thomas Lewis, M.D., F.R.C.S., 193.
- Forced movements, tropism, and animal conduct, Jacques Loeb, M.D., Ph.D., Sc.D., 478.
- American Red Cross textbook on first aid, Col. Charles Lynch, M.C., U.S.A., 451.
- Le Cabanon, Dr. Lucien-Graux, 43.
- Symptoms and their interpretation, James MacKenzie, M.D., LL.D., 193.
- Burns and their treatment, J. M. H. Macleod, M.A., M.D., F.R.C.P., 78.
- Locomotor ataxia, William J. M. A. J. Maloney, M.D., 191.
- The orthopedic treatment of gun-shot injuries, Leo Mayer, M.D., 247.
- Reclaiming the maimed, R. Tait McKenzie, M.D., 363.
- Memoranda on army general hospital administration. Edited by P. Mitchell, M.D., 593.
- Blip treatment of war wounds, Rutherford Morison.
- Amputation stump, C. Martin Higgins, 192.
- The way out of war, Robert T. Morris, F.A.C.S., 190.
- The Hodgen Splint, Frank G. Nifong, M.D., F.A.C.S., 194.
- Essentials of dietetics, Maude A. Perry, B.S., 136.
- The elements of hygiene and public health, Charles Porter, M.D., 15.
- Philistine and genius, Boris Sidis, M.A., Ph.D., M.D., 43.
- Shell shock, G. Elliott Smith, M.D., F.R.C.S., and T. H. Pear, B.Sc., 78.
- Practical bacteriology, blood work, and animal parasitology, E. R. Stitt, A.B., M.D., 618.
- The composition of certain patent and proprietary medicines, John Phillips Street, Major, S.C., N.A., 194.
- Tumors—innocent and malignant, Sir John Bland Sutton, LL.D., F.R.C.S., 338.

- Military surgery of the zone of advance, George de Tarnowsky, M.D., F.A.C.S., 247.
 "What men live by," Leo N. Tolstol, 192.
 Surgical applied anatomy, Sir Frederick Treves, F.R.C.S., 502.
 War surgery of the abdomen, Cuthbert Wallace, C.M.G., F.R.C.S., 392.
 Surgical treatment, James Peter Warbasse, M.D., 278.
 Handbook of operative surgery, William Ireland de C. Wheeler, B.A., M.D., 79.
 The principles of mental hygiene, William A. White, M.D., 724.
 First lessons in spoken French for doctors and nurses, Ernest H. Wilkins, Algernon Coleman, and Ethel Preston, 79.
 The proteomorph theory and the new medicine, Henry Smith Williams, B.Sc., M.D., 418.
 Acute appendicitis: practical points from a twenty-five years' experience, C. Hamilton Whiteford, M.R.C.S., L.R.C.F., 190.
 Catechism series, Captain C. R. Whittaker, R.A.M.C., 190.
